Thread: [Free Google Nest Mini \(2nd Generation Google Home\)](#)

Now that Google has started giving out Google Nest Minis to some Youtube Premium users, do you think the market will be flooded with Nest Mini coupon codes?

You can read a bit more about this on my other thread (to see if you are eligible):

<https://hackforums.net/showthread.php?tid=6034077>

Currently the following countries are getting these codes:

- Australia
- Canada
- Denmark
- France
- Ireland
- Italy
- Japan
- Norway
- Sweden
- UK

US is not one of them.

Damn thank you OP for posting this thread. Just saw I could claim a google nest.

This offer lasts until 24th of January, so I could see the marketplace getting filled up with codes
