Thread: [\[FREE\] \[METHOD\] Create verified PayPal accounts without linking anything!](#)

I learned this method a while ago from a friend, and decided to type it up to share and give back to the community! With this method, you can create a verified PayPal account, without needing to link a card or bank account. It also shouldn't get restricted or anything randomly. Hope this is beneficial to you! Drop a response to the thread, or PM me if you want this!

Only giving this to L33T or UB3R rank members, or respected members with decent pop and high post count. Sorry!

Only way that's acceptable is adding a bank account or a credit card by PP's terms. Therefore, I'm not going to allow you to share it due to potential fraud.
