Thread: [Is posting a bot in the ewhoring section allowed](#)

Simplicity! - December 21, 2019, 3:41 am

I'd like to post a bot (ewhoring related) for free that people can use for a specific website for traffic.

Am I allowed to post it in this section (the post will contain a download link): [Adult Content Management](#)

If not, where am I allowed to post this? As I'm not sure as to whether that is the proper forum or not.

Hoping it is as I'm curious about the bot and the site it's used for, plus free is always great ?

spiral - December 21, 2019, 4:43 am

if its for free yeah you can.

Yeah, it's going to be free.
