// I will add that in my to_do list features and will be work upon.

Note : If you can help out in promoting as well here on hackforums and other forums you are in, We will keep that in mind and may come into some arrangement.

Thank you all for entering and trying our closed beta program. Some users from here and Bitcointalk have won upto x3-x7 of their credit bits and withdrawals are processed.

Our very first closed beta will be soon closed and we will be preparing for our final launch day after tomorrow.

Site is open for everyone to Deposit and Withdrawal your winnings.

Merry Christmas to everyone and Good Luck. Will be closing this in few hours.

We are currently accepting deposits only after 1 blockchain confirmation and withdrawal is only allowed after your deposit gets fully confirmed with 3 Blockchain confirmations minimum.

We have not allowed credits before 0-confirmations as to disallow any violation against fair transactions.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

I've been trying this out and I'm really liking it! I'm getting a little rush each time lol, it's a fun way to pass the time and potentially win more. I like the fact it's a simple and pleasant interface too!
