Referrals are not allowed in this section, there is a whole section for referrals.

If this is the pop**** method, yes you do. That's why you're posting here.

Because you fucking mongoloid a bunch of people are already posting these "\$5 AGC giveaway" but they're not giving away a \$5 AGC, they're linking their referral from popcart.

I didn't even say popcart in my post boss.

If this isn't the popcart method then just ignore me, but according to your post it seems awfully like it during the time where this influx of people are "giving away \$5 AGC"
