Really liked the third season thinking of reading the light novel

You should read the LN, it's really really good, Ainz has an amazing presence in the novel. Also, i don't know for english novels, but in France, 1 tome = 1 season, it's pretty easy to catch up the anime like that.

For sure, Madhouse ruined the S3 though

I am hoping for the best but last season was awkward. The animation was not on par with s1.

I guess so. It is an incredibly profitable series.
