If you are looking to become famous by yt videos by hvhing, at least have the balls to buy ot. This will show to the viewers that you care about the content you are producing, and also will increase the quality of your medias (since otc is quite bad).

Just sayin man. I am aware that the hvh scene is for obvious reasons pure cancer. YT-wise, most hvh content creators are just noobs that triple peek and use baim with awp to create medias. I see those kind of stuff everyday on hvh servers. Nevertheless, if you on top of that you use otc to "make medias" then you just make it even worse.
