Thread: [Looking For Solid Resources to learn Pentesting,bug bounties.](#)

xyz.omse - December 30, 2019, 2:43 am

Yoo whatup hacker community! recently I've been completely drawn into the world of pentesting, cyber security, and bug bounties. A couple weeks ago I purchased a book called :

"Kali Linux Revealed: Mastering the Penetration Testing Distribution (https://www.amazon.com/gp/product/0997615605/ref=ppx_yo_dt_b_asin_title_o00_s00?ie=UTF8&psc=1)

I have also been studying and watching code academies Full Ethical Hacking Course on youtube : <https://www.youtube.com/watch?v=3Kq1MIfTWCE>

Just so I can kind of get started and familiar with some commands and code.

Was just wondering if anybody has any really solid resources you used while you were learning or as your still learning.

Maybe some good books about the topics or any courses that you have taken or are taking :)

Any feedback would be greatly appreciated.
