Thread: [\[NEW\] Unbiased Review Service - Honest and High Quality Reviews \[FREE\]](#)

**Lorem Ipsum** - December 30, 2019, 7:27 am

How does this work:

- 1) You will send me a PM or start a Conversation regarding your product and/or service
- 2) We will create a contract, my review in exchange for your product and/or service
- 3) I will leave an unbiased and fully honest review, written in a well readable post

Disclaimer:

I won't re-sell, copy, steal, spread or leak the product and/or service

I will always leave an unbiased honest review, regardless of the user

I won't charge anything, this is based on a free service for now

I won't flame or sales-trash, but a negative review is a negative review

I will use proper language, no phrases like; "It's just bad" or "Perfect!"

I won't review illegal services or products like RAT's, Crypter's and/or anything related to that!

I will check if it has the potential, that the seller / provider is claiming ( example; \$500 a day, \$10 a day, etc.)

I won't change my review based on my opinion of you, popularity, Bytes or else. Honesty matters!

Not sure if product reviews are still allowed. I'm also not sure but maybe I was warned once after the contract system was implemented.

What if a method requires a full week of effort to make it work? Will you put in that much time?

I would depending on what type of product/method it is so I don't see why OP wouldn't.

Yes, it's still allowed as long as I make a contract. The contract should include my 'review service' in exchange for their product(s)/service(s).

Yes, I will put in that much time to make a good review out of it. If I am not willing to do the effort, for some unthought of reason, I will tell so in the review and of course decided whether I feel like it's possible to make the money that is claimed in the title and/or thread.

Long story short; Yes, I will do so or mention why not. ?

If not, I will tell it to OP first and explicitly tell in the review that it has potential but I didn't test it out completely. Anyway, I will make sure my reviews are of high quality.

The conversation about him was very smooth and chill, And he did ask someone because we are not sure if the contract is right for the vouch. Also, he pinpointed the things I want him to review even if my product sucks. Would recommend him if you are looking for a high-quality review on your product or service.

Thank you for the kind words, my man!

I'm glad you are selling a well written ebook, but I must be honest, if it would suck I would have told you too in the review.

I care about honesty and I think if all the ebooks, methods and such are review unbiased and with honesty, there would be a lot less disappointed buyers. Enjoy your weekend ?

Vouch copy was provided to OP. Conversation with him was a great experience, OP was kind, quick, direct and friendly.

He left an honest, huge review, writing every detail that was importantly related to the provided service.

Amazing review, someone that actually puts up the effort to review your product/service. Highly recommended!

Didn't know you had a thread for this. I'll come back here when I start a new service. I'll probably have a review copy available.

Thank you. I do appreciate it. I don't know what you'll launch as a new service, but I'm looking forward to it.

I just wrote a review of the license service from the member; AmazingLicense. I hope to do more reviews in the future. ?
