Thread: [New years resolutions. Why not...](#)

Mr. Robot - December 30, 2019, 9:43 am

People are getting sick of these because people never follow through. Recently moved so here are the resolutions I have come up with:

1. 95% or more of every WiFi network in the new city I am in within a 10 mile radius.
2. Complete my game and launch it.
3. Put out at least 1 brand new tutorial to HF per month.
4. Stop drinking red bull.
5. Create another product to sell on HF.
6. Not shave my beard.
7. Build a PC with 128+gb ram + 3990x threadripper
8. Meet at least one person for a coffee with a net worth of \$25m+

Do you guys have any resolutions? Make them within your capabilities.

MavenGradle - December 30, 2019, 9:49 am

Any chance for a playable demo/prototype of your game, exclusive to HF?

Lorem Ipsum - December 30, 2019, 9:50 am

Of all the 8 things you listed there, what will be the hardest thing for you to do?

I assume point 8, 5, 3 and 2 is 'easy' to do. The rest is discipline and/or luck, but how do you feel about it?

I'm trying to make more money than this year, help more people, procrastinate less and spent less money at 'luxury' (Bytes, gambling, food, clothing, weed, road trips, etc) and spent more money at investments like I used to do. such as BTC, real estate (eventually), stocks and of course the buy + sell kind of merchandises.

Long story short; I have a long list, but not willing to name them all. This is a daily, weekly, monthly challenge for me, not a 'NYE resolution' haha.

Still using my two \$100 1920x1080 monitors since 6 years

I would however it would just get leaked too early. I've had a couple people run around that I trust.

Fair enough, well I think the hardest one on there to do is "Put out at least 1 brand new tutorial to HF per month." - the rest are all pretty reasonable. I don't like when people make copy paste tutorials so I always try pop something out new or made in a way for the forum.

I must say, I don't have a network at this point with members over 25M wealth to hang out with, but I could arrange that in a year.

I know a lot of people and they know me, so pulling some strings would be doable, not easy, but doable.

Making a brand new tutorial seems impossible to me, with all these varieties of threads, hacking tuts, shares and more. Great to see that you're doing a serious resolution list this year. Quit the Red Bull and buy some Monster energy, joking, it's good to hear that you want to improve your health ?

Fortunate - December 30, 2019, 10:00 am

Why not make a few on the spot.

1. Stop drinking soda
2. Finish the army with pride
3. Start studying more
 - Finally code my own app
 - Learn web automation with python
 - Share the progress and teach others about it here
4. Have a healthy relationship
5. Invest and save money

Best of luck to your goals Mr. Robot, I can see you achieve these easily.

Aeowulf - December 30, 2019, 6:44 pm

Red Bull is legit an addiction. I. Am. An. Addict.

Otherwise, I'd love to see your game! Always interested in Indie stuff.

You need 128 gb ram cause you can't close out some tabs or use a addon for chrome that saves sessions in browsers?

Weird flex but ok.

It was a joke, wordlists take up a lot of ram.

Let's be honest, it's the Chrome tabs.

My goal is to finish clearing my debt and possibly prepare for buying a house. I'm fed up of renting.

Motusora - December 31, 2019, 9:18 am

My new years resolution is to make more money than what i made in 2019.

DNA - December 31, 2019, 9:48 am

I was laughing until I saw your game on the list..

I don't make resolutions, I just live day by day.
To make a new years resolution is like setting yourself up for failure

I got a new years message earlier on discord. I said "Just another day" and went back to work

Diamond - December 31, 2019, 4:26 pm

My goal for 2020 is to make improvements in all areas of my life!
Another year, another opportunity to do great things!

Last year, my resolution was to lose weight, and I went from 250lbs to 180lbs. This year, my resolution is going to be to actually exercise.

iNviZ - December 31, 2019, 8:31 pm
