Thread: [Sports Book Suggestion](#)

I don't know if anyone suggested this already but I think it would be pretty nice to have the Sports Book more organized by creating tabs

Seperate NBA, NHL. NFL. (Football/Soccer) tabs

This would make it easier to find the bets people will want to make and also make it so we don't have to dig as much.

We already plan on doing that. We just want to wait till we have all the sports added that we want first.

It is possible because the API we use does provide data on NCAA (football and basketball).
