Thread: [An endless story](#)

Citoa - December 31, 2019, 9:05 am

When I was a kid and played CS 1.6 I was participating in some forums and I remember that in all of them there was always a thread with an endless story. So I thought I would create one here.

Rules are simple. I start the story and every person can continue it but has to leave an open end so other people can also add to the story. (if someone decides to troll and make an end to the story then just ignore it). The end result is a big story and sometimes humorous. You can add as much as you want but it is better to make it just a few words.

So I start by saying:

"Once upon a time..."

"there was a homeless man and his dog.They slept together under a not so busy bridge."

My dude,

Quote:[..]

5. This isn't 4chan so don't treat it as such.

[..]

7. No forum games like "person above you", "opinion of you" or one word response threads.

Is this considered a game? I will close the thread if it is needed.
