frosch - March 5, 2020, 12:31 pm

Out of interest, are the Techniques used to spread based on common Windows Exploits or more unknown ones? And what about AntiVirus Software, does it get triggered by this Application?

RCE - May 8, 2020, 8:24 am

@frosch, techniques are known and for sure it's not FUD and you can use your own crypter for the case of fully bypassing.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.
