Thread: [Hey! Male Pornstar](#)

enrique_amor504 - January 2, 2020, 12:55 pm

Hey guys, I started doing this as a joke but it happened to blow up. I started this 2 months ago. Google Enrique Amor on Pornhub.

Anyways, I joined hackforums in search of graphic designers and people who could help promote my business. I also need a website designed and someone to help me design my clothing line. This will be pushed behind my company GOE which is small now but with the help of you guys, maybe we can all make some money together.

I would have uber leet right now if hackforums accepted paypal, if anyone could help me with that I would be highly appreciative.

Welcome :) Hit me up with any needs of graphics and i'll see what I can do

Edit: As for L33T, you are able to purchase using your credit card :) I'd recommend the \$30 option since it's a Permanent Upgrade

Welcome to hackforums :)

You can use Paxful to exchange your PayPal for Bitcoin, which can then be used to upgrade your account!

You can use blockchain.info to make a free online wallet with minimal effort.

Welcome to HF... I had a look at your videos and you must stop doing them things with your "Little Sister" or you might get into trouble...

Jokes aside... I used to cam on Chaturbate. I did one solo cam a couple years ago and it went well and earned over \$100 in a night. It was one of the most popular cams on their that night but after 1 night never cammed again. Not sure why. Guess it's hard to cam in a busy house lol. Maybe I'll get back into it one day.

Welcome to HF. You first gotta upgrade yourself to l33t before thinking about ub3r.

And HF stopped accepting PayPal payments long back. Only cryptos are allowed. You can visit LocalBitCoins to buy some BTC.
