Thread: [I'm looking for a battleye bypass.](#)

TepqeT - January 5, 2020, 4:50 pm

Good evening, I am looking for a battleye workaround, possible to pay but not expensive and I would like to obtain proof that they work. I give you my discord to contact me more easily Tep #0001

Good luck.

You won't find a battleye bypass like this.

DavidIA - January 6, 2020, 2:05 pm

so has everyone for the past 10 years Imfao

atari2001 - January 7, 2020, 10:07 am

Battleye and cheap, you won't find anything.

lol - January 7, 2020, 7:30 pm

I have one very short answer for ya.

No.

It's impossible. Get a job then pay. Cheap c*nt.

DEXAiM - January 7, 2020, 8:46 pm

By "not expensive" you mean no more than \$2,500, yes? You might have some luck!

shreder - January 7, 2020, 9:13 pm

Battleye yeah you're going to pay a hefty sum for that Imfao

Meterpreter - January 7, 2020, 9:23 pm

Tell you what... Give me \$2k and I'll find one for ya.

~Chester~ - January 7, 2020, 9:32 pm

i have one id be willing to sell for 5k

atari2001 - January 8, 2020, 1:32 am

good coders want for a private battleye hack 1k+ (its then only for one game!)

int main() - January 8, 2020, 2:09 am

Not difficult to find and definitely won't cost you as much as people are saying here, imo you probably want it for \$50. Spend 6 months learn a language and paste one yourself.

JW1337 - January 8, 2020, 4:37 am

Probably detected now but you can try it.

Why would u hack game, only pro's should be good at?
Hardware bans hit u harder then anything.
