it's 2020 and today I turned twenty two

So how do I feel at 22? (for knowledge purposes)

At this age. I feel like i'm really a man now. I had long left behind the kiddy shit and realized life is only a game but one to be taken seriously. The clock is ticking for me to settle down(spiritually). Hook ups were never an issue for me(no arrogance) but I feel like its time to find and invest in "the one". Settle down. Build a home(life). Put money away. Yada..yada..yada.. I miss cocaine, I would pop a line right now. I don't want to do it again though that's %15 tax on your health. Scratch that. I've been fully sober for a while but fuck it's about time to spark that controversial joint. I'll be in the motherland soon (Morocco).

I fully digested that money is not happiness. Although it can set you up. I've been seeing older family fall sick; paying attention to my eating habits/fitness.. let's try and live a long'healthy life

Thought i'd check in

I'm getting old boys ?
