Thread: [Bustabit/Ethercrash Script, I have a working strategy](#)

Boy Red - January 7, 2020, 12:03 am

I have a strategy with a very, very low chance of failing that profits slowly. It has a 0.000002% chance of failing.

I've been playing manually for 5 days with a .7 ETH investment and have profited 3 ETH so far.

Now, I am looking for someone who has knowledge writing scripts for either Ethercrash or Bustabit to automate this. I plan on leaving this script running 24/7 to generate passive income.

Former experience with Bustabit/Ethercrash scripts required. Payment in PP/BTC/ETH, please DM to discuss further. If you are able to write the script you are more than welcome to use my strategy.

No, I am not interested in selling or extending my strategy further than the user who writes the script. I'm sure if too many people use it, BaB/EC will ban users who abuse it. I have seen this happen in the past.

pm the way you need it coded

SIM-2501407 - January 7, 2020, 6:18 am

The amount of times I have seen "I have a strategy" for bustabit is unreal.

Good luck, you'll need.

Spoiler ([Click to View](#))

Last time i did bustabit (a few years ago) i went from \$20 to \$320. There are times you can bet with a good probability of winning but there is never a guarantee.

Mr Monopoly - January 7, 2020, 9:30 am

I can code that script for you. Can't send PM so you are more than free to send me one :)

Don't wanna crush your party, but the thing is that on the long run you're going to lose anyway.

hello you, i can code your script, I have coded a lot of scripts for ethercrash, and some other pages, but the trick I coded didn't work for long because my trick had a very high% loss.

techsam - August 28, 2020, 11:06 am

Ok .. can convert to script for EC (Not for BaB) .. @ 2 ETH fee

Responsible for converting Description of Action to Script.

Not for its performance or losses.

fknhippie - September 12, 2020, 12:32 am

I have coded various scripts for both platforms and created scripts for other users in the past so I should be able to get this done for you, do you have a budget in mind for this type of product?

Normally I charge 0.02 btc for custom script work

Let me know if you're interested in working together
