This is something have been looking for in a long time, a standalone app that only does 2 functions such as hrdp and reverse socks, too bad the price is way out of my budget for now but i will surely come back for this when am ready, mean while is this fud or do we have to crypt just like any other malware?

heybrotex - January 7, 2020, 6:54 am

I need to learn more. Can I please send me some more details?

RCE - January 7, 2020, 11:19 am

@Lextian, yes you can use a crypter to make it FUD

@heybrotex, Messaged you about this.

??????? - January 14, 2020, 12:37 pm

Is there anyway to request additional features added to this? A password recovery feature I feel is the only thing missing.

Thanks for your suggestion, we don't have a plan to add it in a public version, maybe in a custom version (in request).

Regards.

How am I supposed to monitor my own machines when this software is focused on avoiding the main user? I don't even see a Remote Desktop feature or anything.

Not trying to flame you or start anything just genuinely curious.

RCE - May 8, 2020, 8:22 am

Update:

- +Fixing some bugs.
- +The reverse connection now is more stable.

started a contract over 24hours ago and nothing...

RCE - May 21, 2020, 7:17 am

Dear customers,

Since I'm getting a number of fake contracts, before creating a contract you must message me , otherwise,
your contract will be rejected.

Kind Regards.
