Yes, I see! It was indeed 3x because I wasn't sure how it would look at my profile.

Nice to see that it only took me 300 Bytes to get my autistic urges out of my head ? all jokes aside, I do like a clean or sorted row of awards ?

Just tag [Xerotic](#) when posting small things like this. He'll fix that easily. Thanks for reporting.

Adding to this while regarding Bytes History pages: I also noticed that when Quick Love was added it showed up in Bytes History as a Sports Wager instead of a Quick Love, however since then I haven't seen it happen again.
