FAQs

#1 How can I get the codes after payment on the Selly store? Is it automatic? Or do I need to contact you after that? Is it instant delivery?

The codes will be sent to your Selly email address automatically after the successful payment. Please note it is the email address your input in the Selly site, not PayPal email address. Also please check the spam folder of the email box. Sometimes the codes email is sent to the spam box. For PayPal payment, it is instant for a successful payment. For cryptocurrencies, confirmation is needed to be completed first for a successful payment.

Add "no-reply@selly.io" to your email contacts, this will help sometimes.

For a Gmail box, do not forget to check the Gmail Promotions Tab and spam folder.
