Each tweet pulls 100+ likes in 10minutes (Varies on tweet).

Price: \$10/per retweet (PM for bundle deals).

Payment Method: CashApp (Preferred) or Paypal.

Lowered the price from \$15 -> \$10.

Will the tweet stay up forever? If so, this is a good deal. Otherwise, it's a bit pricey, especially considering there's another user selling the same service for \$5-10 per retweet. Either way, I'm interested.

Retweet will stay up for 12 hours. According to our stats within that time period over half a million people will see that tweet. This is a great network which is why it's a lil pricey at \$10 per retweet.
