Thread: [Is anybody willing to mentor me in Ewhoring for a 50/50 split ?](#)

Hi I was wondering If anybody was willing to mentor me in Ewhoring for a 50/50 split or something similar ?...I have plenty of time on my hands, hours and hours "literally"... Been having hard time finding work so I'm willing to put in whatever amount of time needed and wouldn't mind learning from a professional and partnering up.

Also in your own opinion, do you think a mentor for ewhoring is even necessary ?

OP, what idea do you have, to make sure one mentoring you is going to receive split?
