Hello.

Selling a private method that is not saturated.
I'll teach you how to eWhore on Snapchat from your computer.

Requirements:

- Android Phone
- Snapchat

I didn't plan on selling this method.
Anyways, I'll sell 3 copies of the method.

The price will be \$25 BTC

It has nothing to do with any emulators

Pretty overpriced. I know two ways how to do that and honestly I would not sell them for more than \$10.

But good luck with sales, maybe someone buy it

Nothing to do with an emulator.
Guarantee it's worth the money.

However, I do see the price is too high, so I will lower it

OP is banned so I'll take this into my own hands.

No.
