Learn to Code in Python 3: Programming basics to advanced

Python3 programming made easy with exercises, challenges and lots of real life examples.

Created by: Ivan Lourenço Gomes | Duration: 5 hours | March 2019 | Genre: eLearning |

Language: English

What you'll learn:

- ? The basic fundamentals of programming and writing computer code

- ? Using Python to solve real life problems with computer programs

- ? Work with JSON and send HTTP requests to Web Servers and APIs to get data from external services

- ? Statistics and Data Visualization

- ? An introduction to Machine Learning in Python

- ? Use Python to manipulate files, such as Excel sheets and TXT files

? Enroll ? Spoiler ([Click to View](#))<https://isn.page.link/FF1d>

? VT ? Spoiler ([Click to View](#))

Will need your service, how can I enroll ?

WANT3D - January 18, 2020, 8:01 am

I appreciate this greatly OP. Looking to pickup more work in Python, and Udemy (warez disallowed) has proven to be a good service in the past.

krozna123 - April 20, 2020, 10:16 am

I hope i can make something interesting with this thank you

Trashy Udemy (warez disallowed) course, here's a decent ebook about Python (that probably has more details than this course): <https://nsa.sfo2.digitaloceanspaces.com/comp3321.pdf>

Still a decent ebook that they use to train their people.

Or you can trust some retard on HF to link you to some Udemy (warez disallowed) course that costs money.
