Thread: [\[POLL\]Best DBZ Dub](#)

For those who do not know, Bruce Faulconer is responsible for the Soundtrack for the dub that I think everyone likes the most. The one that gives you the chills. The Funimation dub is simply the best, not because of how awesome the voices are, but because the soundtrack is absolutely spine-tinglingly fantastic and will give any 90s baby/kid nostalgia.

Like... come on guys. It's obvious here what sounds the best, but I will respect the fact that everyone shares different opinions!

Only dub that is actually better is TeamFourStar and that's only because it's hilarious and satire. ?

I really like the original japanese and funimation dub. Purist cry about the dubs all the time because they're biased and want to stick to the roots. I LOVE the dub music and certain dialogue in DBZ. The ocean dub is fine and I don't really like Kai because they cut out some important/amazing dialogue (and moments), but I love the newly added orchestra music. For me it would go: Japanese = Funimation >> Ocean = Kai . For now, i'll just vote Japanese because it's tied with Funimation dub.

I can somewhat relate to this. I love the new music in DBZ Super to be honest.

I do too. Some of it is from Kai.

I grew up with the English one (talking English) but I started to watch the Japanese version when the Dragon Ball Super came with the tournament.

Now, when hearing Whis or Beerus in English I cringe. I dislike the voice of Whis so much I can't listen to it haha. Ruined DB English for me ? Not into series anyway, but once a while I enjoy it.
