Thread: [My Anime Search Engine - A product of boredom](#)

ITlorty - January 8, 2020, 8:37 pm

Since finding where to watch my anime via google has been becoming increasingly more difficult, I put this together. So thought I would show it off.

(Demo link in github read-me)

github.com/derp-all-day/Anime-Search-Engine

Well thank you. :)

Nachfolger - January 10, 2020, 2:43 pm

Anime is real cringe dude, this deserves to be trashed.

On a positive note, I very much appreciate your folder and file structuring, it's very neat and almost exactly how I organize my project folders.

Anime is life my guy. But to each there own. ?

And thank you, I try.
