Thread: [Hello everyone, I'm a penetration tester from China!](#)

w3bh4ck - January 9, 2020, 12:49 pm

Because I have too much work, I need to find some partners to complete my work with me, of course, I will give the relative reward!

1. Penetration testers

(1), familiar with various technologies and methods of penetration testing, various penetration testing tools, various operating systems, application platforms

(2), PHP / Perl / Python / JavaScript / shell and other scripting languages

(3) ASP, PHP, JSP and other mainstream web security technologies, including SQL injection, XSS, CSRF and other common security vulnerability exploitation

(4), familiar with domestic and foreign mainstream security products Tools, such as appscan scanner, WVS, etc..

2. program development

(1) More than 2 years of experience in project development of PC terminal and mobile terminal, able to independently produce and maintain website;

(2) , proficient in HTML5, div + CSS, jQuery and other common technologies;

(3) With gambling website development experience is preferred,

If you have any interested partners, please contact me! telegram:Test404_Gabriel

Sounds like you have a pretty solid background, do you have any formal training?

I've been interested in creating a gambling site myself!

Dotexe - January 10, 2020, 5:42 am

Please send me your past bounties as a proof, slide them in my DM's
