Thread: [BF5 still have rush?](#)

genesiseher - January 10, 2020, 12:05 am

does anyone that has game know if the rush game mode is still on BF5 as it was a temp thing but hoping those bastards left it as permanent game mode

as dont see elsewhere if it is so someone here can help hopefully that has game and plays it frequently

as all i see is

Operation Underground, Mercury and Rotterdam became playable on the mode during Battlefest Week 2 (October 10-17, 2019).

so its removed now or was left?

Can't forget the chrome addon to filter out the spoofed player count.

What are you talking about?

The fake player counts via the server lists. You join what is shown to be a "full lobby" and it's dead. The problem was posted a lot on the bf forums and the final solution was to use the addon.

Ahh makes sense. Idk how recently it became a real problem but when I played a few months back it was the first time I ran into the issue.
