Thread: [Hacker looking for a group \(ex Royalty\)](#)

Fladrif - January 10, 2020, 12:17 pm

I've been away for quite some time - I won one of the "Hack into Royalty" challenges a few years ago (<https://hackforums.net/showthread.php?tid=5483579>) but then not many months later I left the forum. Are Royalty still around?

I'm looking for a group. Are there any decent groups focused on hacking / pentest still out there?

If you can hack @Deal you are welcomed into equilibrium.

PM sent to Deal asking to join, as I'm guessing you were joking :)
