This method will teach you how to use the system of gambling websites and gain some good profit out of it. You will NOT be making the money from putting money on bets, actually, you'll be losing a little bit of your money before you start earning. I won't go into details, if you're really interested, feel free to contact me.

How does the method work?

This method will teach you how to use the system of gambling websites and gain some good profit out of it. You will NOT be making the money from putting money on bets, actually, you'll be losing a little bit of your money before you start earning. I won't go into details, if you're really interested, feel free to contact me.

What are the requirements for this method?

The only main requirement is some money to invest, that's all. The other requirements are:- Time- Patience- Some brain cells (anywhere from 1+)

What? Risk-Free Gambling? That's not possible.

Risk-Free gambling is indeed NOT possible. However, gambling with our method is risk-free. Huh what? Yes, your investment is safe using our method. Don't worry.

What is the calculating machine?

The calculation machine is a simple file, you will be using the file to calculate your losses/profits and so on. It's a really good way to make this method semi-autopilot, and it saves you from a LOT of work.

Overall 8/10.

Now here's why, this is not a get rich quick scheme. This a very smart exploitation that will take a lot of time to master and get you the big bucks. It is indeed an exploitation. If you have the time and money to get started then I would recommend it. If you're just looking for a get quick rich scheme then you'll just have to hit the slots. There is little to no risk with this method and personally it's refreshing knowing how easy it is to take back from bookies. The method came in multiple emails and through encrypted files, it was a little overwhelming and kind of tiring here the guys voice but it was very detailed and needed to fully understand it. For the price he is selling it for I would recommend it, but be ready to give a few hours of your day and realize this isn't hard work, but it is repetitive work. You will need to be 18, there is no tax write offs. Thank you for letting me give it a go and I look forward to using this method when I have the time more. If anyone has questions feel free to message me or Target. Thanks again bro, GLWS

(Jan 12, 2020 03:40 PM)Stork Wrote: [\[CITE\]](#) Here is my review of Target™'s Gambling Exploitation.

1. Explanation and Presentation: 7/10

The guide is explained quite thoroughly and the videos are easy to understand. The videos are not short in length and can be overwhelming to people new to gambling especially sports betting but if followed correctly it is impossible to lose money even if you know nothing about gambling or sports. The guide comes in multiple zip files which are encrypted and can be frustrating but understandable. The software provided is easy to use and the videos fully explain how to use it.

2. Time and Investment: 8/10

Using this method can make you alot of money in a short amount of time, understanding the software and setting yourself up will take time. You will need a initial investment and the more you are able to invest the higher your profits will be. You are also able to expand off of this guide and potentially earn more but it will also take time. This method will take you along time to scale to \$5000 a month but it is possible. There are no taxes involved since it is gambling and this is not a blackhat method.

3. Payment and returns: 8/10

This method requires you to be able to scale your initial investment to reach a withdraw amount.

This shouldn't be an issue unless you don't plan on fully committing to the method. You should see an average of 180-200% return but this can fluctuate day to day.

Overall I would say that this is a good method to make side cash if you have the time and spare cash to invest. This isn't autopilot and requires quite abit of set up and work but can easily be a good source of income.

I never gambled online before. We need to have gambling experience?(IRL or online).
To double my investment on same day, how many hours need to dedicate on your methods?
Works for any gambling site around the globe?
We are gambling against the system, or other people?
This is for blackjack, slot machines or something else?

Thanks

Okay maybe my math is wrong then sorry.

This method isn't autopilot, it's not let something run and your pumping \$1000 per day. Let's make it simple like that. The more effort you put into it, the larger the return you will get out of this. You will need a good amount of effort to make a return out of this.

No it is not, it's sports betting. :)

BT323 - March 8, 2020, 4:32 pm

Hey Target ... Not sure if this was answered somewhere else, but does this have to do with bonus bagging, matched betting or taking advantage of the sports books welcome bonus offers?

Do we need to have access to sports exchange like Betfair to do this or can we use a regular online sportsbook?

Does this have to do with Arbitrage?

Look forward to hearing back from you.

Thx

is this still currently working in april ?

with a guaranteed money earning title surely a buyer can show proof of money earned since purchasing by now ? It would rocket your sales or is it not so simple

With COVID-19 going on, it still works, but more limited.

It's not the simplest method, takes quite a bit of time to return on invest.

Yes, you will learn new stuff from this method still. And yes, UK is fine. Shoot me a pm if you got more questions

purchased a copy last night. It's a very good method which works and is explained in great detail which was nice. Only down side is that it might not work in every country. Doesn't really work here in the UK

That's strange because the post right above yours ... the OP states that UK is fine.

Can you please clarify?

Hey Target ... Can you please clarify if this will work for people in the UK?

Also is KYC & verification required for this to work?

So he told me the requirement for this to work is that certain websites have to be legal in your country. They are. However, that's not the only requirement, this guide does not work in Australia. I'm now out \$200 lol.

If I already make money full time from betting strategies extracting value from sites like bet365, am I likely to learn anything from this product?
