Thread: [Get Unlimited Anker Portable Chargers for FREE \[\\$73 VALUE\]](#)

Killers - January 12, 2020, 1:15 pm

I will be selling a method that explains how to get Anker Portable Chargers for no cost. These are by far the best quality portable chargers and I would definitely recommend at least one for personal use.

It is very easy and pretty much anyone can do it.

I will charge \$30 for the method for the first 5 people. Then \$40.

I will also be selling these chargers for \$20 if you want me to just ship them to your house (no method included)

I'm willing to offer one vouch copy to one trusted user to get my name out there. Thanks guys!

I'll snatch that VC as long as it works in the UK and doesn't involve refund methods or anything illegal.

I'll gladly leave a vouch for a copy if it's still available.

I'm in the US, my assumption is it's for US only?

If I am considered trusted let me know :)

I will gladly take the vouch copy if this is available out of the US.

Is this a certain charger or does this work for all their chargers? Interested in this

omy11 - January 12, 2020, 8:16 pm

Is it for all chargers or a specific one?

Is is a refund method or something illegal?

Contact me with details i am interested.

Will it work in Australia?

I'll wait for the honest feedback.

I'm very interested.

Cheers.

I got a vouch copy and here's my review.

I did not try the method out yet, as it takes some time but I will be starting it later today. Everything that's there makes sense, seems like everything should work perfectly, don't see why it won't. If you need a charger this is a good gig, won't be next day shipping but it's still pretty good
