Thread: [if you became US president :D](#)

**SEO Service** - January 14, 2020, 4:33 am

If you became US president, what would be the first thing you do?

**SIM-4033767** - January 14, 2020, 4:54 am

Establish a good economy for everyone in the USA.

**Malicious`** - January 14, 2020, 4:56 am

Make an alliance with my fellow comrades in Russia and N-K of course.

And then bomb everything else. World fixed

**Lorem Ipsum** - January 14, 2020, 4:57 am

I think I'd hire the best shrink to help me get rid of all the guilt, all the secrets that I would have to keep for myself and of course all the human made diseases which I have to present to be "unknown" while those around me who I love are getting sicker each day. I'd need a shrink for that.

I'd get rid of the army and the billions and billions of dollars that are saved, will be spread around the USA's residents.

Savage ? would you really bomb every country except the USA?

No more original tacos, nothing made "in China" anymore and of course no more Europeans who are harmless like myself! You wouldn't bomb me, would you?

Ban guns.

Increase the tax rate to 40-45%

Free healthcare.

Free school & education.

**dave soiutig** - January 14, 2020, 8:16 am

I'd probably stop the US being a warmonger for profit.

**Fish** - January 14, 2020, 10:00 am

I'd never be the us president as I don't live in the states. Simple.

**Grey** - January 14, 2020, 11:04 am

Every single US troop called home, including those stationed in countries like Germany and Japan still.

It's not like you sign an executive order to have a better economy

Socialism never worked, open a book. Hitler was a socialist and it was ducked up.

**SawCyanic** - January 14, 2020, 11:23 am

I'd work on abolishing the Presidency and the Federal Government all together.

**Prepper** - January 14, 2020, 11:48 am

I would focus on

1. Free healthcare
2. Building a stronger economy
3. Reverse Trump's foolish and harmful actions effecting our Climate

4. Clean energy and fight climate change
5. Infrastructure, our roads, bridges, sidewalks, etc
6. Deal with our homeless problem and poverty

**hayesh** - January 14, 2020, 6:09 pm

I would curb executive power to a great extent and government power in general

**Nate** - January 15, 2020, 12:36 am

I'd fix the homeless problem we have in America

Denmark  
Finland  
Germany

Pretty much have what I described.

Most of them are ranked the happiest countries in the world.

How does it sound like "hitler" ?

**Django** - January 15, 2020, 6:30 am

I would hire a hitman, and get myself assassinated in the same way JFK got murdered. I'd do it on the 22nd of November 2063, just to fuck with people.

Idk man, I'd sort out accessible healthcare for all, federally legalise weed, sort out all the social services, get rid of ICE for civilian offenders (non-criminals/non-cartel members), rework the TSA system, less ridiculous Visa requirements, etc. There's a whole lot that could be done imo.

**Connected** - January 15, 2020, 8:00 am

I wouldn't want to be the US President. I'm super Anti-State lol

I am not from US but I would do whatever I can for better future I guess.

Try to hide the fact that I have posted so many inappropriate, yet dank memes about other countries.

**Shaggy** - January 15, 2020, 10:35 am

I'll reduced the amount of budget used for military/nuclear weapons and help the homeless people instead.

I don't necessarily disagree with lowering the budget in the military, but what are homeless people going to do to benefit society? Not all, but a lot of them are on drugs, are partially insane, or have no motivation to do anything. I remember seeing a homeless person begging for money right across the street from a Hardees with a "We're Hiring!" sign in the front window.

Rather than helping the homeless, I rather put that money into fixing the public school system. Even in good public schools, they aren't prepping you the way they should.

**Bluffer** - January 15, 2020, 10:57 am

Press that cool red button and see what happens.

Okay real answer....

Cut funding for military

Raise taxes on the richest 1%

Cut taxes on the working class

Raise budget for education (not free education)

Keep taxes on businesses low

Invest in infrastructure

Legalize Cannabis nationwide (regulated too, no free-market)

The list goes on but another thing would be reduce the accessibility that lobbyists have in Washington. Government should work for the people not just big corporations.

There's always a way to test homeless people capability, But I'm not saying just abandon those meth heads and lazy dudes. It's like selecting which one of the homeless should have more priority because he is talented or hard worker, Instead of public schools why not Budget Houses for those who were selected.

A homeless man slashed my tires, I say we let them suffer now. The actions of one man leads to a punishment and judgment of all.
