It seems that you are serious and not joking so i am going to answer, It is hard for me to give

concrete information that is honest if i dont know your preferences, ex. win7 or win8/10.

Regarding the traffic then it come from targeted ads.

I prefer to target worldmix loads using win7 sp on RIG but it variates but somewhat around 25-28% on the kit itself but that is really not of your concern because let say you order 500 loads then you get 500 exploits on public stats and then load is done. Use fresh software and not cracked, rate is about %50-60 on Predator, Racoon, Amadey and other stealers and loaders but this is normal when loaded from EK, ask me about your soft before buying and i can answer if i loaded this soft before and the results.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

Do you need the file crypted before sending it to you or you will crypt it yourself. And for Europe loads how fast would you deliver it?

The file need to be crypted, i am not a crypting service so i cannot crypt your file. I however can recommend a crypting service if you need one.

For how fast to complete Europe loads, I would need to know the amount of loads but you start receiving 10 minutes after you paid me also your payment need 1 confirm so it might add additional time to how fast i start.

Alright do you have America or Canada traffic at the moment ?

You are not popular here and I am not seeing any vouch here either but I believe you with how you explained your traffic source. I will like to try your service with a lower quantity against your mentioned minimum requirement. and at \$0.10 per install just 200 bots. If the bots are HQ. I will buy your normal fixed volume and price. and also I will need America traffic after the test phase.

If you wish to us to deal constantly which I would love as well if you are genuine. Please add me up on Discord: Motuary#9470

It insults me that you dont know who I am. Come on russian forum and i will burn you. Go talk about Exsile, he been banned on russian forums for ages for scamming.

You are selling some worthless methods and this is why that you are doing everything in your power to not let me get a foot in this market.

I did not sell a single copy, how do you know my product is worthless ?

Send me your profiles on russian forums, i would bet my house that you will never do that, just empty words

Astonished - January 17, 2020, 2:34 pm

I don't care what petty answer you have for me that you have given others.

No vouches = No sales.

Go to the marketplace every single person that has made sales or none at all have still given out vouches.

Your contracts are worthless and are with 3 members with minimal interaction on the forums (low post count AND thread count), one of them even has an open dispute.

The reason I say this is because installs of bots is a common one from people trying to make some quick \$, speaking with advanced terms but don't do anything with the knowledge themselves.

GLWS but I doubt anyone with a brain-cell will purchase before someone reputable here comments about how great your service was.

Once again, I don't care what crappy answer-back you have for me. Be mature and look at these things with a business mind.

USA/CA stream to my predator with your crypt, you guarantee atleast 50% of bots knock to the panel? Lets use escrow?

I dont have USA/CA stream available for you. 50-60% is normal for my worldmix. I am not a crypting service, you need your own crypt.

As i wrote you on xmpp , i was waiting for the bots before the contract to check the amount that you send.

I wouldn't vouch for 5-10 bot.

I hope you get someone more serious to vouch for you anyways , i don't need your bots and like i told you the first time we talked i just wanted to vouch for you.
