Thread: [Report counter on profile?](#)

Django - January 15, 2020, 12:38 pm

Hey guys!

I only came back like a month ago after being pretty inactive on here for about 4 years. Before I went inactive (and before the layout changed), you could see how many posts you reported on your profile, but I can't seem to find it anywhere now. Any chance this can get implemented again? I thought it was cool, and I like keeping stats.

Nachfolger - January 16, 2020, 6:02 am

Same here mr Django. I report people left and right and would like to keep track of those numbers.

Heck, [Xerotic](#) add it to statistics too man. I would like to have a quota.

A great feature indeed. It could even have some automatic status, for example "Viewed", "Action Taken", "Cancelled" or something similar.

Gashi - January 16, 2020, 8:24 am

That would be good to have back. Perhaps improved version of it.

SIM-2501407 - January 16, 2020, 8:57 am

TBH I didn't even notice it was gone. Didn't think anyone cared about that...
They probably could add it back in easily.

Cooligan - January 16, 2020, 9:19 am

(Jan 16, 2020 09:24 AM)Gashi Wrote: [\[CITE\]](#) That would be good to have back. Perhaps improved version of it.

Agreed.

A new more modern version of it would be fantastic to have on your profile.

Years ago when I first joined I barely would report posts because I didn't know what was report-able etc, but now I report all the time.

It'd be wicked cool to have that counter back on our profiles. ?

Nate - January 16, 2020, 9:54 am

It was removed, but I liked seeing that on my profile.

To know that im serving my community yo

Nachfolger - January 16, 2020, 9:57 am

As much as I would love this, this was already rejected before (maybe not formally). Though, I think it would help guide us better as to which of our reports are actually valid.

Blogger - January 16, 2020, 9:58 am

I was just looking for it yesterday. Crazy. Would love to have it back as well.

Omniscient - January 16, 2020, 12:01 pm

I don't think we need this on profiles. We are trying to prune what's there to make room for newer features which are more modern. I suppose we could consider it on the Analytics page which only you see.

Xerotic - January 16, 2020, 12:34 pm

This has now been added to the Profile Analytics page:

<https://hackforums.net/member.php?action=analytics>

That page can be found while viewing your profile. It is under your profile banner and to the right.

Django - January 16, 2020, 12:35 pm

Thanks a lot guys! That is so dope! I'm sure everyone else in the thread will be pleased, too.

Is it possible to view another user's analytics (If not could it be considered)?

SIM-2501407 - January 17, 2020, 3:47 am

Xerotic is such a beautiful individual.

Omniscient - January 17, 2020, 8:57 am

Sorry, but no. It's a private feature for your own account measurement. If you want to share it you need to take a screenshot.

I thought the report count was removed? I mean I can't see it on my profile. ?

Django - January 17, 2020, 5:09 pm

It's on your personal analytics page on your profile.

Oh, Thank you so much for this I literally had no clue about it..

Also, pretty sure 1 Reported post for me is a lie..

(Jan 19, 2020 11:08 AM)vladim Wrote: [\[CITE\]](#) hi i'm new here and i have read the forum rules, but i still find it complicated to get around here. i have a trading robot that suddenly stopped working i need help getting it to work, it runs on MSDOS with NET Framework 4.7.2 and executes trade on Metatrader 4 via mt4 api. Any help will be appreciated on how to get it fixed.

Wrong section. Start out by introducing yourself in the "Introductions" section, and familiarise yourself with the layout of the forum.

We recommend you take the time to read the [HF Help Documents](#) section. The answer to your questions should be contained in there.
