Yea what above me said. I'd like proof aswell.

If you can do that, let me know and I can invest in this method for only \$50. Let me know ?
I can show you how I do it with 200\$ investment. I am not going to put all my money in it. Don't want to risk getting my funds frozen if it gets detected

So you can show me live how to turn your \$200 into more money? And why is \$200 safe to use the exploit but not \$5000?

Many people gamble away thousands each day, each hour at Roulette. Anyway, will wait for your reply.

zvoracle - January 16, 2020, 7:56 am

i hope its not the well-known "exploit"

reply. Because if they detect me that I used an exploit they will freeze my account - which means I will lose 5000\$. If they detect me now I will lose just 200\$ which is nothing and I can afford it

Which is this well-known exploit?

Okay, I hope you aren't 'double' spending the BTC. Either way, let's make a video please of you showing today's date + your HF username, using \$200 BTC to make more with the BTC exploit. If it's legit, I am willing to purchase it. \$50 seems incredible low for someone making \$200-\$5000 with it.

Sadly double spending doesn't work anymore in the BTC casinos. It used to work before but now they are waiting for 1 confirmation before crediting your account. I can't make a video of the exploit as each of my sessions with it is a few hours long. I can show you live how to do it if you want or I can record my starting balance after I start using it and the balance I have after my session. I will show the wallet transactions so you can be sure I haven't deposited more money after the first recording. Let me know how to proceed

Which exploit takes a few hours to 'do'?

I do not trust a \$200 deposit and a \$1000 withdrawal. Could be luck / gambling skills too. Anyway, I'd invest after seeing a video of you and feel free to 'speed up' the video to a few minutes, if you can't do that I will no longer post on your thread and keep my \$50.

No offence, I just have trust issues when it comes to online investments especially for \$50 only when possibly making thousands of BTC.

I am not going to bother creating a video and uploading it. If someone wants he can watch me do it live. I am not your slave to do whatever you ask me to do mate. Also I will be increasing prices once some people buy it and post their results here

Did I assume or tell you any different? Calm down and keep your respect for others please.

I politely asked for it, since I don't trust photo's of any deposit / withdrawal, offering \$5000 to invest in whatever yet selling a method for \$50 BTC raises my suspicion.

I never said you were my slave, so don't act like that I did, wow.. rude. Done here, since you clearly can't discuss anything without being offended or patronised? Good luck with your \$50 sales, while offering \$5000 to "spend" at anything fun.

I don't understand what is wrong with people these days. I offer something good which works on a cheap price. I offer to show a live proof (LIVE PROOF) and yet I am considered a non legit user. Well this is really weird my man, really weird

I just said that I DEEM your method not legitimate if you can't show ME proof of a video using the exploit.

I never said that other members don't consider you a legit user, I just wonder about your \$50/sale thread while claiming to have \$5000 to spend at 'fun' things. If you want to offer something good, give it away for free before the exploit is fixed. That would give you huge credit and of course a lot of respect, without even thinking about the +3 and what more.

I'm not investing in anything proven with a photo of a deposit and that's all I said.. you started telling me you weren't my slave and got offended. So that's what is wrong with people these days... ask 1 thing and they feel like being a slave immediately? Rude as F*CK my man. Done here. ?

I mean why should I bother recording with hours when someone can just watch me do it live - nothing hidden or anything. That's my point - and no I won't give it for free. I haven't gotten a single thing for free in my life and I won't give that either

Why bother watching a guy stream some 'exploit' for hours at some BTC platform, if we can watch a time-lapse video in a few minutes.

Anyway, I'm not offended nor rude about the fact you don't want to show proof, but about the fact you acted like I treat you like a slave, which is incredible rude in my opinion my man.

User seems chill and offered to give me the exploit first and pay him after I'd make some profit. However, I wasn't too comfortable with risking my funds getting locked and declined his offer. This is a great opportunity to test the exploit before paying for it, good luck with sales.

Favorit - January 16, 2020, 9:07 am

i can test the exploit if you are giving me a vouch copy and i will pay you after i make profit.

George Shelby - January 16, 2020, 9:08 am

First copy sold. I have 1 buyer now that is going to try the glitch. Once they leave their reviews I will be increasing the price so people don't complain anymore that its so cheap :)
