I have purchased the method and received it. The method is really promising and I have a very good feeling with it. I know people that did this but I wasn't sure how it's done properly, now after OP explained me I will be able to try myself. The OP is also extremely friendly guy so you won't have any issues dealing with him. I can recommend everyone buying this method while there are remaining copies left :)

With all my respect sir, I don't choose my buyers - they choose me. I have been here for years and I can guarantee you that a review coming from a reputable user doesn't always means its accurate. For reference you can check the multiple times Appraisers vouched on methods that in the end turned out to be a scam

You'll have to give someone reputable a vouch copy before anyone will buy, some random with no forum activity isn't gonna work here.

High Definition - January 17, 2020, 7:15 pm

To be honest, I'd trust a review from a paid customer more than vouches.

Vouchs are mostly shitty and always forcefully written without any payment proof. We don't want to know if reviewer "thinks" the method is great. We want the proof that it is. And I've rarely seen good vouches.

On the other hand, if the vouch comes from paid customer with proof, that's much more credible.

Absolutely agree with you mate. Someone that paid for something will give more accurate information than someone that had it for free

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,

Would not advice anyone to buy this. Probably its too late already for some people.

This is just basic martingale strategy , these is no "trick" or nothing.

OP probably is trying to pull a quick one on users who buy with a screen share for small time.

Yes you can get lucky once or twice and just like any martingale strategy it's a bullet to head.

Further OP tries to convince his buyers saying you can't loose with his strategy and that he has not hit a streak in last 2 month.

But upon just observing the game for just 1 hour, the streak was already hit twice. Have screenshots which I sent OP also.

But anyways, he said he will refund the money. Made me wait well for hours.

While I could see him trying to pull a exit here by Posting "Final copy to be sold" and bumping the thread here.

Also someone just opened a Dispute against OP -

<https://hackforums.net/showthread.php?tid=6043067>

So after that, looks like OP feels no need for refund as he will be thrown out.

So yeah be careful. I will also be opening a dispute as he fake promises before selling the method. Won't really call it a method, just basic martingale .. You can find better in Youtube.

Also looks like the first 2 Vouches from dead accounts are OP's alts. Well I can be wrong, but looks like it.

So after that, looks like OP feels no need for refund as he will be thrown out.

So yeah be careful. I will also be opening a dispute as he fake promises before selling the method. Won't really call it a method, just basic martingale .. You can find better in Youtube.

Also looks like the first 2 Vouches from dead accounts are OP's alts. Well I can be wrong, but looks like it.

I was doing good at the beginning, then the loosing streak kicked in... I even skipped couple of games. I went from 12.95mBTC to around 5.55, did an all-in which luckily brought me to 15.something mBTC. Then continued using his "strategy" and ripped my whole balance..

OP seemed like a very cool and chilled guy at the beginning but now he doesn't even respond to my message on discord about me loosing all.

Really Wrong Turn? Refund our money please!

I already asked OP for refund
He not responded yet !!

I don't think this guy will refund us...

This is why I don't buy ebooks full stop. Wrong Turn clearly has no intention of refunding anyone, he also has open disputes on currency exchanges, OP is clearly a broke boy.

I feel like he's trying to exit scam.
4 open disputes, made a "contest" and got informed by Eagle 95 (Staff) to announce a winner in 24 hours timespan or be banned for 6 months.

Ok the OP also screwed me.
My first steps on HackForums, I should have listened to my mentor, this is the last time that I trust myself.

The OP did not even deign to send me the method, can a charitable soul send it to me in PM to see how stupid I was ?

I open a dispute too.

atari2001 - January 22, 2020, 6:38 am

There is no safe method with gambling...

Lorem Ipsum - January 22, 2020, 6:45 am

Be careful when dealing with OP.

< He got 4 open disputes

< Reply from Eagle 95 at his "fake" contest (

< Online and not responding to the disputes

This is a red flag when it comes to behaviour. I assume OP is trying to scam as much as possible

before being banned for 6 months. Not claiming that he is, I assume. Be careful, people.

Is this a bustabit script? Where you cash out at 91x?

Instant Panel - January 22, 2020, 8:52 am

OP ignoring messages. He said he not going to refund anyone. Not caring about disputes

Stay away from this person. Exit scam
