Thread: [What Artist/Band/Album from your childhood do you still listen to?](#)

Anima - January 17, 2020, 2:43 pm

Personally for myself it's the Hold Me Down Album by You Me At Six (I especially like: [Hard to swallow](#), [Underdog](#) and [The Consequence](#))

Well, to be honest i just love the whole album, my most fond memory of underdog is playing Call of Duty Modern Warfare 2 map Terminal. Plus in "The Consequence" the lyrics are "I've got real big plans and such bad thoughts" which I relate to aha

I just can't get enough of You Me At Six to be honest, especially [Bite My Tounge](#)

Crazy to think it's been 10 years since this album has been released.

If anyone is interested in some other music/songs that i listen to, heres a little list (I'll keep it updated with any decent songs I find or have forgotten to add:
