CashApp - January 19, 2020, 1:46 am

Hey guys since I'm new here I thought I'd offer the community an ewhore ebook that I made for only \$5, it includes my own private methods on how to start your ewhore hustle, scripts, sources, how to get high traffic etc. Those who wish to buy will also get a bonus picture pack.

Made \$300+ in just a couple days with this method, unsaturated and not a waste of time.

Requirements*

Phone/Computer

Time and effort

Determination to hustle \$\$\$

I accept Cashapp/BTC or PayPal for payment , my discord is #Dream6737 or PM if you are interested. Will give a vouch copy to an upgraded member.

You are new here, multiple matching IP's (assume VPN) and already selling ebooks for \$5? Sounds too good to be true.

Anyway, good luck with the sales, if you could add some "proof pics" you would have more creditability.

About the vouch copy; I have a review service - unbiased and detailed reviews.
