Thread: [The Basics to E-Whore on Snapchat](#)

Ethxn - January 20, 2020, 10:48 am

Hey all ?

So i'm just making this post to explain the basics of e-whoring on snapchat.

If you dont know what e-whoring is the i recommend you read this post

<https://hackforums.net/showthread.php?tid=6041847>

People to avoidPeople under the age of 21 (Ask them for there age)

Guys with abs

Foreigners (Mostly just talk like they have loads of money and want to fly you to there country and will look after you, not interested in buying)

People that ask for a "nude" preview and wont accept just a selfie, "i wanna see that body babe" ?

For starters you will need a pack. There are plenty of members that sell different packs within the forums. You're mainly going to want a pack that will be good for Snapchat that has lots of content to post, even non-nude images just so people think you're legit. Before buying a pack do some research & reverse image searches on her. This way you can find out if the packs on the internet which you can get for free or if the girl is a well known porn-star, in that case dont buy it because there will be a lot of people that recognize her and you will get called out a lot, obvs your choice but.

You can upload your images by using an app. Samsung, iPhone or Blue stacks.AtroSnap

Snxp

ChickenCam

Or make your own fake cam app if you know how to.

How to get potential customers / Snapchat views etc? Quite simple to be honest. You have plenty of options that can help you acquire them for free... but you also have ways that will cost money.

Purchase HQ Traffic off a member

[BRAND NAME REMOVED]

Wink

Omegle Bot

Shoutout for shoutout (SFS)

Reddit

Use your brain, if your a horny guy and want to find girls on the internet to speak to then what would you search? Search sites up and make accounts and advertise on them.. There are dozens of sites used daily by horny guys..

How to look legit? Quite simple. Speak to the customers but while your doing it figure out if they're wasting your time of if they actually have money to spend on you. Be different than other people, instead of advertising premium say you're struggling for rent or you're wanting to buy something and thats what the moneys going to. Use your SE Skills. Another way to look even more legit is by buying a Snapchat score booster, lets be honest when you add them back and you have a 0 score it doesn't look very legit, Unless you ain't adding them back.

Best ways to accept payments

PayPal

CashApp

Amazon Giftcard

Apple Giftcard

Venmo

For PayPal I would recommend you get them to send the money as friends and family this way they cannot get there money back at all and its guaranteed yours, There only way to get the money back is if you refund it. Obviously this seems a bit sketchy but just blag them if they ask why. To identify if they sent as friends and family or not when you receive the payment check if you lost any money from them sending it over, if you do then they havent sent under F&F. Also when you review the payment if it asks you if you have sent the "item" that also indicates they didn't send as F&F.

Ways to verify your accounts for [BRAND NAME REMOVED], paypal, email etc using a fake number use

SMSPVA

GetSMSCode

Use a VPN to cover your IP Address when signing up for sites, logging into snapchat/paypal etc. There are plenty of options such as[censored]

ExpressVPN

PrivateTunnel

PureVPN

Google others.

How to prevent being Snapchat Banned

Delete your storys before you go sleep

Dont add to many people at the same time.

If someone isn't going to buy and just wasting your time Block them, this will prevent your time being wasted & them adding you back but also reporting you.

Tips to prevent shadow ban on [BRAND NAME REMOVED] Don't put snapchat or anything advertising in your bio.

Use different images when uploading

Try using a VPN or location changer

If there's anything else you would like me to cover let me know and I'll be sure to update the thread ?
