I can do everything from backend work to desktop apps to websites.

I can automate phone apps(Android/iOS), build SaaS applications, social media bots, web automation, create websites, almost everything!

I will not create malware/adware/spyware or game cheats.

Do you work on Laravel? Do you have a portfolio?

Do you have Skype or Discord?

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
