What's your target?

I'll let the staff and admin decide if you're him or not. A trust scan can actually be faked. HF has all the data.

Also, I'll take a closer look at this contest. There has been a lot of fake contests recently. All of those members have been banned.

I wish you all the good luck on getting upgraded. There's no R00T upgrade now. There used to be an EP1C and R00T but has been removed.

Please count these replies as my entries. I'd be more than happy to be a part of this wonderful contest you are hosting.

Also, a quick question.

Example:

1. You roll and get #1 which is eXceptional.
2. You roll again for the second winner and get #10 which is again eXceptional.

What will happen in the above-given example?

I will roll 2 times, if "eXceptional" comes 2 times then "eXceptional" claim the 40\$ which is 20x2. This is very rare though that you win both times. Thanks for the wishes.

1. You can't demand for rep as means of entry.
2. If you're gonna rep farm at least learn how to do so, this makes you stick out heavily.
3. Not sure what retard would put a 3 month contest for 2x\$20 but hey you'll probably be long gone before the contest even ends right.

"We invented a new protocol and called it Kermit, after Kermit the Frog, star of "The Muppet Show." [3] [3] Why? Mostly because there was a Muppets calendar on the wall when we were trying to think of a name, and Kermit is a pleasant, unassuming sort of character. But since we weren't sure whether it was OK to name our protocol after this popular television and movie star, we pretended that KERMIT was an acronym; unfortunately, we could never find a good set of words to go with the letters, as readers of some of our early source code can attest. Later, while looking through a name book for his forthcoming baby, Bill Catchings noticed that "Kermit" was a Celtic word for "free", which is what all Kermit programs should be, and words to this effect replaced the strained acronyms in our source code (Bill's baby turned out to be a girl, so he had to name her Becky instead). When BYTE Magazine was preparing our 1984 Kermit article for publication, they suggested we contact Henson Associates Inc. for permission to say that we did indeed name the protocol after Kermit the Frog. Permission was kindly granted, and now the real story can be told. I resisted the temptation, however, to call the present work "Kermit the Book." -- Frank da Cruz, "Kermit - A File Transfer Protocol"
