Thread: [Paying \\$10 or more... for a topic idea for research paper.](#)

Kush Coma - January 23, 2020, 12:52 am

Hey guys,

Pretty plain and simple service request. If someone can PM me a good research topic idea then I'll send you \$10 through Paypal, etc. ?

Here is the research topic requirements:

Research paper topic that relates to Information Technology.

Qualitative Research Problem

Topic concept lacks theory or previous research.

Theory may be inaccurate, incorrect or biased, and plan is to deep dive theory.

OR

Quantitative Research Problem

Explain or predict the relationship among variables.

Previous Topics Example.

Comparison of Nessus vulnerability scanner to Free openVAS

Compare cloud server solutions for Online multiplayer gaming

Compare antivirus products for effectiveness and efficiency

... Can provide more examples and details PM me.

Just need help finding a topic i'd be interested in doing a long research. Come collect the easy \$10. I can offer to pay more if you really got something good.

[contract=tid]Start Contract[/contract]

Is the offer still on the table ???

If YES,, I've got something good for you,, You won't regret it
