Thread: [Free DDoS Protection](#)

Orca - January 23, 2020, 3:20 am

Hi,

I am giving away free DDOS protection to websites and servers to a few people who would like to test it and give feedback on it.

The free subscription will last 1 year and can even last longer depending on whether or not you like it.

<https://vanwanet.com>

Simple thread, because it's a simple giveaway. No tricks or requirements.

Just post here if you want a free subscription to try it out and will leave feedback.

Best,
Nick

I'd like to give it a shot.

Is it just a VPN? If yes, where is it hosted, since ping is important in my case. :)
