Thread: [Hostinng COD modded lobbies](#)

rubberducky292 - January 23, 2020, 3:29 am

Hello, i am an experienced server creator and currently am paid to hosts peoples servers for cs go. Can anyone point me in the right direction as to figuring out how to host a MW2 modded lobby or black ops or any other cod game? I would greatly appreciate it and compensate for your time. Please, i cant find info anywhere.

You cannot host modded black ops lobbies on pc, most other cod titles, yes. Use google, it's public.
