Hello Hackforums ?

Today I am launching my own development service after working as a freelancer/on demand developer for other service providers in HF. I have been providing dev servers for the last 4-5 years on HF (one thread i worked for: <https://hackforums.net/showthread.php?tid=4620250>) But now wish to launch my own thread.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
