No 100bytes entry from non upgraded members.

Upgraded members only need to rep.

You should really clarify that more Imfao. Now the formatting looks like you want everyone to do that

I know. I got my 2000 Bytes from his previous contact, but the other member didn't receive the \$65 BTC.

He was going to 'pay that' at the 25th of January, pretty weird to open another contest before rewarding the previous winners.

Too bad his Bytes are lost now, instead of spread among the participants ?
