Thread: [!!! E-whore More Efficiently \(Common Knowledge Guide\) !!!](#)

Ewhore - January 23, 2020, 10:54 am

What's good, I'm new to HF but been around other forums and ewhoring for a while now and picked up solid tricks of the trade. I'm here to share some and would appreciate some love in return!

Enjoy ?

1.) Pitch Your Sales in Seconds, Weed Out Time Wasters Instantly!

One way to do this is to create keyboard shortcuts on the device you're Ewhoring on. For example, create a shortcut for your sales pitch by making "ff" auto correct into something like "Just selling my content! Lmk if you're interested in premium!". This will decrease the amount of time you spend typing and will increase efficiency while weeding out time wasters.

2.) Do NOT Traffic on LQ Sites/Apps

Unless you want to spend your time receiving a first message dick pic from horny guys around the world, please stick to HQ traffic sources; and if possible, HQ locations as well (Location Spoof). At first you may be trigger happy, trying to draw as many adds to your snap as possible. This is not always the case. More views on your story creates greater opportunity to be reported by your "friends", ultimately destroying your Snapchat. Ultimately, LQ traffic is not worth your time, find a source that will get you about 4-10% of adds being buyers to generate a few hundred in profits a day.

3.) Location Spoof

This one is pretty obvious but FOLLOW THE MONEY! Nobody in your raggedy a s s hometown is trying to buy your chicks nudes with their last paycheck. Don't wanna saturate this so not giving out spoofing methods or any other info on this; NUFF said, figure it out.

4.) Fake Live Snaps

This one is also gonna be a necessity for ewhoring (if youre not a girl of course). IF you don't have an app for this yet go buy Snxp, Atro, or some other alternative to those.

5.) Social Engineering

A crucial skill to obtain or learn to master ewhoring. Your biggest obstacle as an ewhore is convincing a guy to buy your premium nude content rather than googling "porn" and having access to millions of models for free. I'm not going much into detail for this because you'll learn as you go BUT one tip for making sales is cornering your client into a sale. For example, when you're ready to try and make the sale give your client two choices to choose from. "Would you like my monthly premium or lifetime premium", cornering your client to a choice between two options that make you money. "Let me know if you'd like to buy any of my premium content", allows your client to avoid your sales pitch easily, ultimately losing your sale.

6.) Get Yourself a Solid Pack

I've used all different types and there's nothing more satisfying than making a sale after verifying yourself to a client with a good, HQ, pack with verification pics included. Yes, you can make good earns off a free pack of course but I will guarantee you the loss of any sale that asks for any type of verification from you. ALSO, a HQ pack does NOT NEED A MILLION NUDES. In reality, you only use about 20 pics and vids total while ewhoring; as well as your verifications, if available. Having huge packs will help as you become more experienced with larger sales but for starters, get a quality pack with verifications.

Thank You if you made it this far lol hope you enjoyed and ill add to this if requested! Let me know your thoughts below!

Nice tutorial for beginners however it needs way more info to be "intermediate guide", these are basics and you are avoiding to talk about location spoof or any good sources.
