yo how do I learn to type with 10 fingers

I've been typing with just my pointer fingers and my right thumb for space my whole life. I type fast as fucc boi, but I know I'd be way faster if I could learn to use all of my fingers.

anyway come play typeracer let's run it up

You keep this going tomorrow and I'm for sure in. I just hopped off for the night

Alright, let's get this going again, I want to see if I can do it.
