Vouches

(Jan 31, 2020 04:21 AM)Drunk Wrote: [\[CITE\]](#) The member has offered me a vouch copy about an hour ago. A few minutes later, we got started. Here is my review, based on my knowledge, experience and what I have seen.

TIME for a REVIEW

Overall rating: ?????

Prices are fair, speed is really fast, very high quality bots and one of the friendliest members I have met so far. Read the full review for more information.

Speed: ?????

Really high speed. After he got started, I went to grab a quick meal. 5 minutes later, I came back on my laptop and saw that I have 150 friend requests already. The bot messages (in server) are really quick, 50 messages within seconds. One of the fastest services I have seen so far.

Quality: ?????

The quality of the bots is very high. They all have a profile picture, they are all phone - and email - verified. The OP has guaranteed me that the tokens will - in all cases - only be used for the customer. Customer 1's tokens will not be used for customer 2. He will not allow different customers to use the same tokens, so that the tokens won't be banned too fast.

Support: ?????

This is basically one of the best members to deal with. He is very friendly, always replies within minutes for any question. I would love dealing with this member.

Pricing: ?????

It is hard to say whether he is expensive or cheap on the current market. There is very few sellers for this. However, based on the quality, speed and effectiveness, I can say that this is most definitely worth the money and I consider this really cheap. I would recommend the OP keeping the current prices. They are just fine and the tokens are not cheap to get nowadays. I will have to give it 4 stars, because I can hardly find any other services to compare it to.

Conclusion:

I do highly recommend this service of @Wolf

I wish you best of luck with sales and I might make a purchase sometime. Thanks for the vouch copy, boss! Now I only have to remove 150 friend requests ?

GLWS!

If you want to include vouches, they must be from a contracted customer. Screenshotting that from your previous thread doesn't cut it. They aren't transferable. They are tied to thread ID.

Wolf - January 25, 2020, 7:54 am

Thank you Eagle :) Understood.

bigbaldguy - January 25, 2020, 9:50 am

Just added you as a friend, interested in your services.

n93718n - January 25, 2020, 11:08 am

Purchased this service, firstly, the pricing is great for advertising a website or a service.

Secondly, delivery was instant, showed proof of PM's, and I seen instant results.

bigbaldguy - January 25, 2020, 11:18 am

Awesome member to deal with! I purchased service but due to some understandable circumstances we weren't able complete the job and the user sent me an instant refund. Very friendly, responsive, and I'd recommend purchasing this service if you're interested!

Wolf - January 27, 2020, 10:40 am

I requested to have my discord server boosted with 100 new members.

OP was very fast with providing the service, all the "bots" came with profile pictures and looked fairly legitimate. All of them passed the spam filters set on the Discord server to rule out fake accounts/spam accounts without any issues, none of them got caught.

Not only did OP provide me with excellent service and quick replies, he acted in a very professional manner when dealing with me.

10/10. I'll definitely come back here to purchase more.

I'd be offering a huge discount for that :)
\$5 per 100 is for first 100.
300k, I'd do for way less money. Drop me a message :)

Pleasant dealing with him and real friendly guy too :)

n93718n - March 22, 2020, 1:55 pm

purchased a 80\$ bulk deal, went fucking spectacular.

Zamper - *March 23, 2020, 2:54 pm*

How the spam on discord will work? I mean it doesn't let you to chat with 0 interval to more than 10 persons without getting blocked.

For example, how long would take to spam 100 persons? with intervals and all, (asking for this because admins are active and they ban you easy from channel)

Joeykh - *April 25, 2020, 11:15 am*

Added on Discord, hopefully you can mean something for my server :)
