Thread: [Hackforums has gone to complete crap](#)

tk209 - January 25, 2020, 10:53 am

I'm not sure about anyone else, but I joined this site in 2010 and in about 10 years this site has gone to complete bullcrap. You can't even write profanity on posts??? I mean what the hell has happened here? Is omni still the admin or did they change? Everybody is just a bunch of f4gg0ts on this website now that thinks they are powerful because they can give you bad rep. Lol sad to see such a great site that had so much potential go to absolute crap. Really sad to see.

It's just a website, relax.

I have been here since 2016 and the site has changed dramatically, but there is still good content here if you drop in every now and then.

Wow most people grow up in 10 years, but I guess the drugs hit you hard and you lost too many brain cells.

It's okay man, maybe come back in another decade and you'll learn to appreciate the wonderfulness of Hackforums.

I agree since you have joined HF it all has gone down hill..

You should delete your account and never come back, hope HF will restore to its origin.

Also, HF always has been great and is still striving, if you can't see it you're blind.

OP is just asking for attention.

The best way to 'use' a forum / website that is "crap" is by logging out and enjoying the offline-life.
OP can't do both, it seems ?

It is what it is... Just find some other low key forums if your looking for the dark side of the net.
